Trash particles include extraneous matter such as grass, bark, etc. \* Less than 0.05 percent.

REMARKS: The results of the analysis of variance show that the treatment had no significant effect on the response of the subjects to the test. The F values are all less than the critical value of 0.05. The p values are all greater than 0.05. The results are consistent with the hypothesis that the treatment has no effect on the response of the subjects to the test.
